

REMARKS

The Office Action dated November 8, 2004 has been read and carefully considered and the following Remarks submitted in response thereto. In particular, the Office Action made a restriction requirement under 35 U.S.C. 121 as follows:

- I. Claims 1-12, 19-30, 40-55 drawn to a support member;
- II Claims 13-18, 31-39 drawn to a leg system; and
- III Claims 56-58 drawn to a wooden side rail.

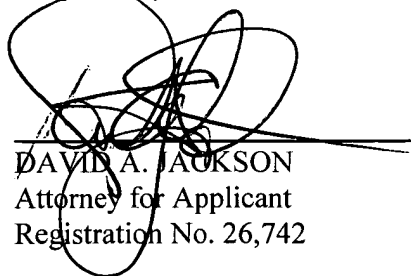

In response to the requirement, Applicant hereby elects the invention classified in Group I, that is, claims 1-12, 19-30 and 40-55.

In addition, it was suggested by Examiner Grosz that Applicant may elect one of the patentable species of Group I and Applicant elects the species of Figs. 7A, 8, 8A, 9, 10, 10A and 11 so far as the junction of the sides of the frame and a support member are concerned.

In addition, numbers have been added to the claims as also suggested by Examiner Grosz.

Accordingly, it is submitted that the case is now in condition for an action on the patentability of the claims and such action is respectfully solicited.

Respectfully submitted,

DAVID A. JACKSON
